Sharon and Jim,

Please take a look at the attached plans and let me know if the revised layout works for you. If you don't take exception I will have the designer develop this plan. I will also forward it to our furniture supplier to use when he works with the both of you on a furniture plan. Please let me know.

Thanks,

Stephen

Stephen,

Here are the drawings for the Schematic Design Submission. I will send you the Chapter 34 review in a follow-up email. One thing I do not have for this is the building CAMIS value for the accessibility review and the value of renovations over the last 3 years. I know that there is a lot of work happening in the building and want to make sure I do not trip some threshold with this small project.

Also, I made a slight change to the evidence storage room...due to the substantial renovation, it seemed that this room should be minimally ADA compliant. We were doing some pretty substantial wall removal and I was planning on replacing the door to the storage room already. Widening the room a little did not seem like a big leap..plus it allows a little more room for storage which seemed very inadequate in the existing room. Let me know if this is a problem and I will reduce it back to the size of the present storage room.

As we discussed, I will follow up with hard copies (3 sets) early next week. Call me if you have any questions or comments....
